A statement of sustainable luxury. This rectangular biocomposite case enhances the presence of what it holds adding elegance, distinction, and a sense of purpose through natural materiality.

**Dimensions: 145x100x25 mm**

**Designed to Elevate Presentation**

**Minimal, Natural, and Enhancing**

**D1**

A singular piece of sculptural texture that plays with light and shadow bringing depth, warmth and movement to any surface. Lightweight, non toxic and biodegradable. It's designed to bring natural materiality into interior spaces, whether used alone or in endlessly creative compositions.

**Dimensions: 150x150x40 mm**

**Natural & Safe insulation**

**Biodegradable & Lightweight**

## D2

A singular piece of sculptural texture that plays with light and shadow bringing depth, warmth and movement to any surface. Lightweight, non toxic and biodegradable. It's designed to bring natural materiality into interior spaces, whether used alone or in endlessly creative compositions.

**Dimensions: 150x150x40 mm**

**Natural & Safe insulation**

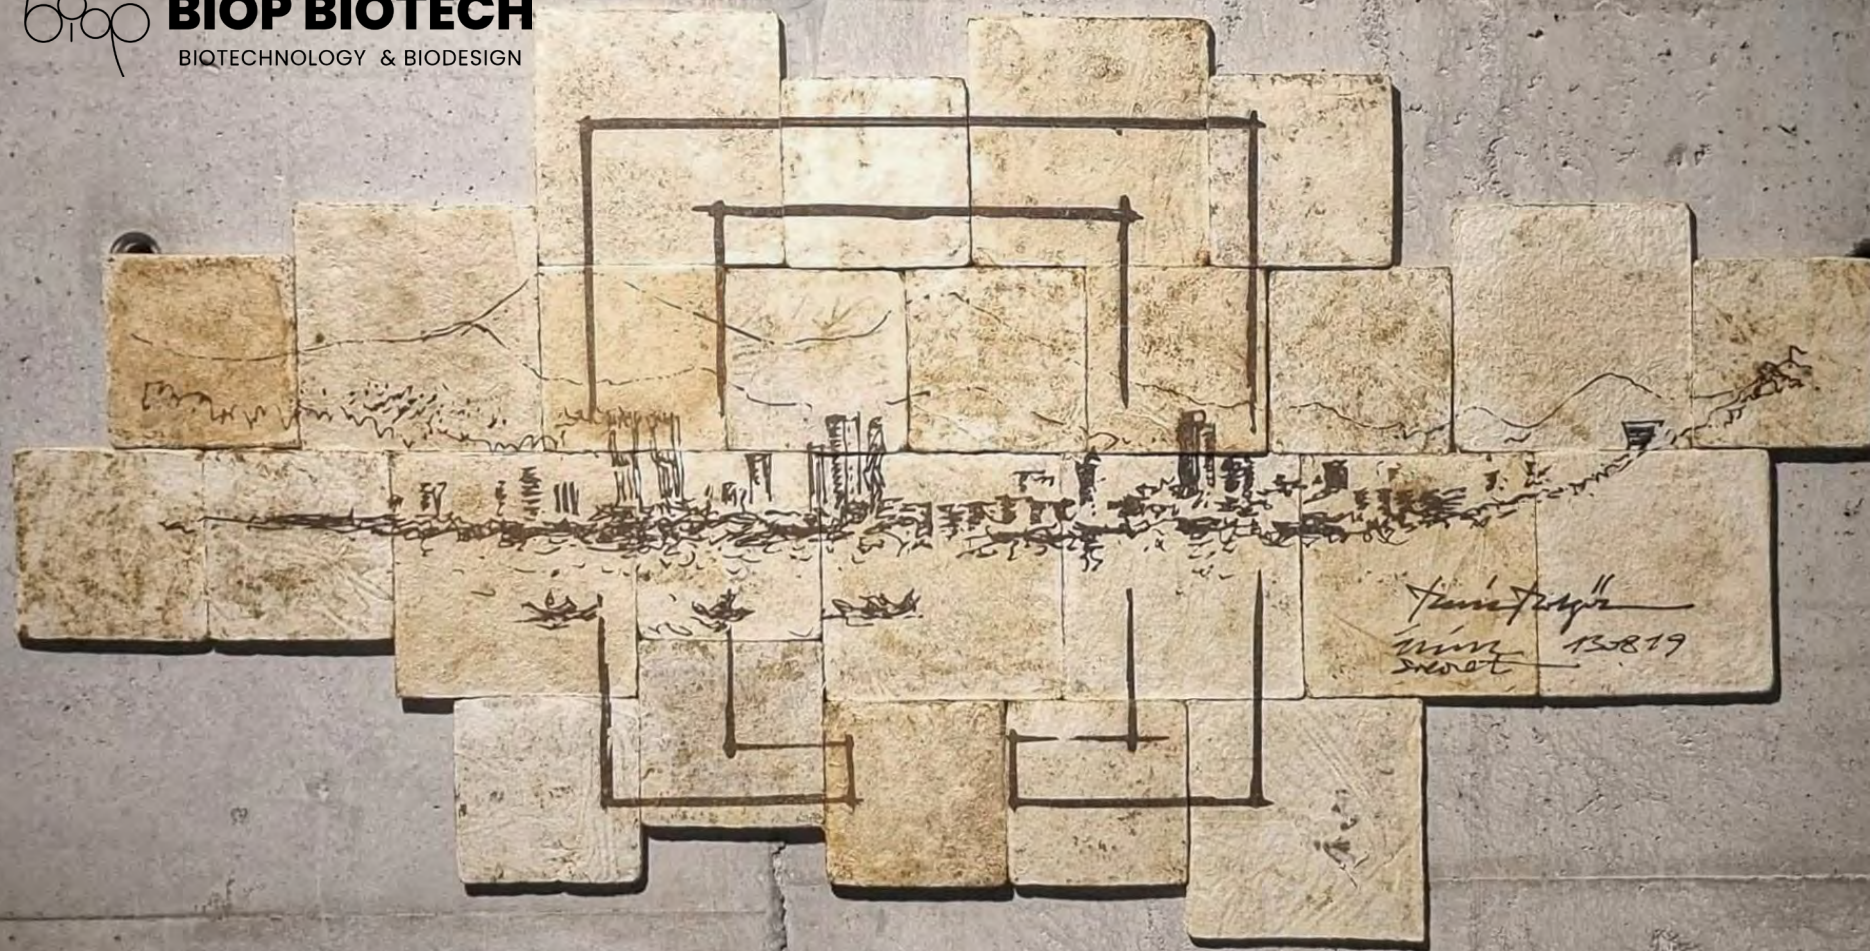

**Biodegradable & Lightweight**

**BIOP BIOTECH**

BIOTECHNOLOGY & BIODESIGN

**D3**

A tapestry of texture and light, where mycelium panels become fragments of a larger story. Sketches etched by laser, forms guided by you. Each piece arranged in a 150\*75 cm flow of a natural rhythm, quiet detail and personal meaning.

**Dimensions: 150x150x15 - 200x200x15**

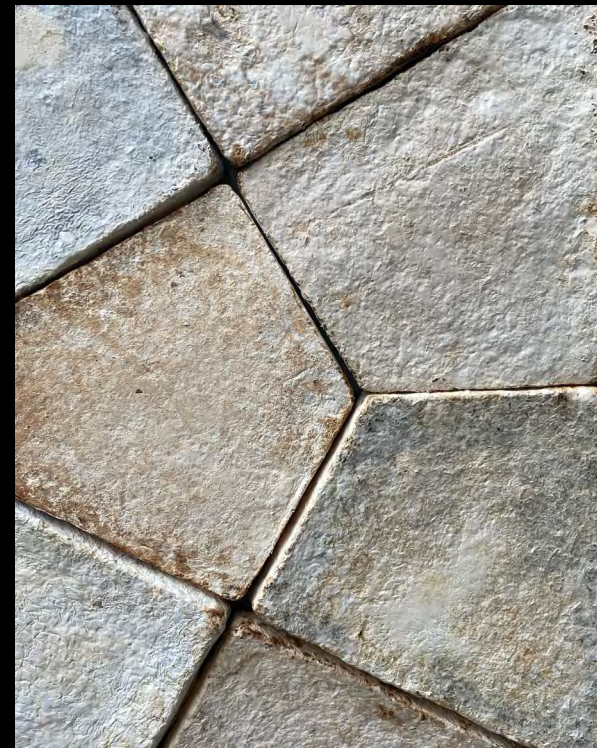

**Modular and Customizable**

**Biodegradable & Lightweight**

## D4

A form that folds into rhythm — angular yet soft, rooted yet dynamic. Repeated or rotated, it creates evolving geometries that shift with light and shadow, inviting organic structure into

**Dimensions: H:180xW:160xT:15 mm**

**Modular and Customizable**

**Biodegradable & Lightweight**

**D5**

A modern form with a personal voice. This flat-surfaced hexagon panel becomes a canvas for memories — from portraits of loved ones to warm words of welcome, laser-engraved in high detail on natural biocomposite. Thoughtful, tactile, and endlessly customizable, it brings

**Dimensions: Ø145xT:15 mm**

**Durable and Biodegradable**

**Customizable and Gift ready**

**D6**

A quiet bloom of form and texture. This modular arrangement of hexagon panels unfolds like petals in motion creating a sculptural rhythm across the surface. With no engraving, its beauty lies in material, pattern and the subtle play of light.

**Dimensions: Ø145xT:15 mm**

**Modular and Customizable**

**Biodegradable & Lightweight**

**D7**

A surface shaped by pattern and presence. With its subtle geometric texture and natural tones, this panel brings visual depth and acoustic softness to interiors creating harmony in both form and sound.

**Dimensions: 150x150x15 mm**

**Modular and Customizable**

**Biodegradable & Lightweight**

**PR1**

A gesture of gratitude, shaped by nature. This customizable display is ideal for meaningful gifts, corporate recognitions, and one of a kind commemorations in fully biodegradable form.

**Dimensions: H:180xW:160xT:15 mm**

**Durable and Biodegradable**

**Customizable and Gift ready**

**PR2**

A memory held in texture. Each panel transforms your photograph into a finely lasered image on natural biocomposite — warm, tactile, and entirely biodegradable. A soulful way to give presence to

**Dimensions: 150x150x15 mm**

**Durable and Biodegradable**

**Customizable and Gift ready**

## PR3

Where branding meets material honesty. This square panel set carries your logo, message and QR code. Each element engraved on natural biocomposite for a unified sustainable presence. Designed for entrances, events or displays that deserve to be remembered

**Modular and Customizable**

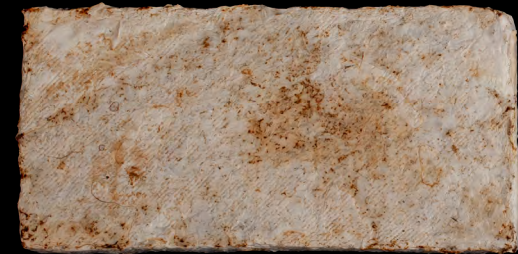

**Durable and Biodegradable**

**Biodegradable & Lightweight**

## PR4

A tactile token of identity or memory. This palm-sized panel holds engraved names, QR codes, smart links, or images — whether for a corporate connection or a wedding moment. Durable, biodegradable, and designed to be kept,

**Dimensions: 100x50x15 mm**

**Text, Image, or Digital Link**

**Events, Gifts and Personal Promotion**
